

PRESS RELEASE

Rosersberg, Sweden, October 10, 2024

Steelwrist is appointed Newcomer of the Year 2024 by Karriärföretagen

Steelwrist was appointed Newcomer of the Year 2024 in the University Engineers category when Karriärföretagen presented this year's winners on Stora Karriärdagen at Berns Salonger in Stockholm last night. Steelwrist has previously been selected as a Career Company 2024, and the Newcomer of the Year award highlights the positive reception of the company's work to be an attractive employer. A clear direction, strong culture and solutions that are both sustainable and that make our customers machines significantly more environmentally friendly are important parts of the explanation to why we can attract and retain talented employees.

Karriärföretagen says about the Newcomer of the Year 2024 appointment: "Steelwrist has made a significant impression through the strong focus on being a workplace where the employees development and well-being are at the center. By implementing effective strategies and a modern work environment Steelwrist has succeeded in attracting and retaining talent. The commitment to innovation and sustainability, together with a clear and inspiring company culture, make them an employer that really stands out. Karriärföretagen is proud to recognize Steelwrist as Newcomer of the Year 2024 in the University Engineers category."

"We have built a strong culture together in the company, that is fast-moving and motivating to work in, and many seem to appreciate it. We are of course very happy to be appointed Newcomer of the Year 2024", says Stefan Stockhaus, CEO of Steelwrist.

"This award is such a joy to receive", says Anne-Charlotte Barclay, HR Manager at Steelwrist. "I am proud that they recognize the work we do at Steelwrist and the opportunities available to our employees. We will continue to build on that to strengthen our brand as an employer, not least in our recruitment work."

Steelwrist is already appointed a Karriärföretag 2024, a prestigious title given to selected companies demonstrating their commitment to building bridges between students, young professionals and their future employers.
