Cable bucket 4-6 tonnes

Cable bucket when you need to be surgical

Steelwrist cable bucket is high from cutting edge to attachment bracket which allows you to properly enter the trench without interference with the tiltrotator. To avoid problems that tiltrotator gripper unit has extremely robust cylinders protection.

On the larger buckets (S60 and upwards) oversized pipes are used to increase the stiffness of the buckets, while the sheet metal truss structure used on the smaller buckets to keep the weight down.

Technical specification

Article	898326
Machine weight (lb)	8800-13200
Quick coupler	S40
Tiltrotator	X04, X06
Volume (yd³)	0.16
Width (inch)	15.75
Weight (lb)	198
Cutting edge (inch)	0.63
