DATATAG

配件

Datatag – efficient theft protection for your Steelwrist (or your excavator)

All Steelwrist tiltrotators can be marked with Datatag marking as an option. For the marking to be valid you need to register your product so that it is included in the International Register. Register your product under product registration.

If you have an older tiltrotator that you want to Datatag??

If you have an older tiltrotator that you want to Datatag? The tiltrotator needs to be clean if it should be possible to mark with Datatag. If you submit your tiltrotator to Full Service you will also get the unit Datatagged. Call our support at +46 (0) 8 626 07 12 or fill in the form here.
