Digging bucket 8-12 ton

Steelwrist's digging bucket is designed to withstand tougher jobs. The bucket is characterized by a progressive radius which allows the cutting edge to penetrate the material without interference from the bottom. The bucket is available with or without teeth. Tooth System CAT.

On the larger buckets (S60 and upwards) oversized pipes are used to increase the stiffness of the buckets, while the sheet metal truss structure used on the smaller buckets to keep the weight down.

Technical specification

Article	101079
Machine weight (tonnes)	8-12
Quick coupler	S50
Tiltrotator	X12
Volume (l)	360
Width (mm)	914
Weight (kg)	280
Tooth system	J200 x4
