

Fixed Brushes

Mechanical work tool 2-20 tonnes

A multipurpose brush for excavators

The mechanical fixed brush has a variety of uses and is adapted for excavators. It can easily be used under the tiltrotator, so you can adjust the angle to reach tight spaces. With the fixed brush you can sweep gravel, remove snow from bus stops and barns or sweep near traffic without risking stone chips. It is practical for cleaning up debris and other material from a work site. The brush has a robust and simple design.
