Grading bucket 3-5 ton

Grading bucket optimized for use with tiltrotators

Steelwrist grading bucket is designed for optimal use with our tiltrotators and quick couplers. The grading buckets has relatively low weight, just like our other products, but is still extremely robust thanks to smart materials and thoughtful design. The design with chamfered corners, open angle, long and flat bottom and conical design are some of the properties. This allows the buckets to cut through the material with minimal digging resistance, which affects your fuel efficiency positively.

On the larger buckets (S60 and upwards) oversized pipes are used to increase the stiffness of the buckets, while the sheet metal truss structure used on the smaller buckets to keep the weight down.

The rounded back of the bucket allows the the material releases easier and fill without clogging during digging. Steelwrist planeringskopa is simply a bucket that does grading work easier.

Technical specification

Article	101009	101010	101011
Machine weight (tonnes)	3-5	3-5	3-5
Quick coupler	S40	S40	S40
Tiltrotator	X04, X06	X04, X06	X04, X06
Volume (l)	200	160	200
Width (mm)	1100	914	1100
Weight (kg)	135	115	140
Cutting edge (mm)	20
