

Pallet Forks

Mechanical work tool 2-33 ton

Steelwrist mechanical pallet fork for efficient material handling

The pallet fork is indispensable for material handling tasks such as loading and unloading materials from trucks, moving construction supplies, and arranging materials on job sites. You can do this efficiently with a Steelwrist pallet fork on the excavator.

The pallet fork is intended for use with or without a tiltrotator to lift pallets. It is excellent for use in areas with limited space, such as roadwork. Steelwrist pallet forks have adjustable spread and excellent through-visibility. It is also available in a hydraulic version.

🔧 Technical specification

Pallet Forks	PF2000	PF2500	PF5000
Bracket	S40	S45, S50	S60, S70
Machine weight [ton]	2-6	5-14	12-33
